

-Draft Media Statement-

August 2023

WA Agriculture community gather in support of The Voice to Parliament

Many in Agriculture want to move forward with First Nations communities to understand the past, recognize and reconcile with people and country and be part of positive change for now and the future.

The Voice to Parliament is a once in a generation opportunity to bring positive change by listening to and recognising First Nations people and communities. The Voice is about getting better outcomes for First Nations peoples, their children and their communities on health, education, employment, business, housing and agriculture. Constitutional support for the Voice will give the First Peoples of Australia the confidence to make the Voice an enduring and effective element of Australian government, respected by the whole of the Australian people.

An event will be held on Saturday September 16th (location in Perth TBC) from 2-4pm for Western Australia's Agriculture industry so its people and supporters can come together to share the broad support for the 'Yes' campaign. We extend this invitation for you to join us, united in our mission to create profound and enduring positive transformation for all Australians, notably embracing and empowering First Nations people.
